

# Cellular Operators Frequency Allocation in Indonesia

## Cellular Services in Indonesia

Seven operators currently provide cellular services which operates utilizing GSM technologies (INDOSAT, TELKOMSEL, XL, AXIS, 3) and CDMA2000 technologies (ESIA, STARONE, MOBILE8, TELKOMFLEXI, SMART).

TEKNOKRAT's services have been specifically designed to support manufacturers, test laboratories and consultants seeking type approval in Indonesia for telecommunications equipment and other ITE. The world's leading telecommunications equipment vendors already recognize the value in our service and entrust their approvals in Indonesia to us. We would be delighted to have the opportunity to support your telecom approvals.
